

DHAVAL PRAJAPATI

Cyber Security Trainee

PERSONAL INFORMATION

Email: prajapatidhaval71105@gmail.com

Phone: +91 7043927178

Address: Ahmedabad, Gujarat, India

LinkedIn: linkedin.com/in/dhaval711

Date of Birth: 07/11/2005

Languages: English, Hindi, Gujarati

OBJECTIVE

BCA Graduate with a CGPA of 5.5, currently undergoing cyber security training, with hands-on practice in networking fundamentals, vulnerability assessment and ethical hacking labs. Seeking an entry-level (Security Analyst / SOC Analyst / Penetration Testing Trainee) opportunity to apply my learning, strengthen practical skills and help protect systems and data.

ACADEMIC PERFORMANCE

Qualification	Institution / Board	Year	Score
BCA (Bachelor of Computer Application)	JG University	2023 - 2026	CGPA: 5.5
12 th Standard	Nishan Higher Secondary School	2023	Percentage: 53 %
10 th Standard	Arpan Higher Secondary school	2021	Percentage: 78 %

CORE SKILLS

Technical: Networking (TCP/IP, DNS, HTTP), Linux, Hardware & Network Troubleshooting

Tools: Kali Linux, Wireshark, Nmap, Burp Suite

Soft Skills: Analytical Thinking, Problem Solving, Communication, Report Writing, Teamwork

TRAINING

Cyber Security Course – TOPS Technologies | Offline Training | Jul 2026 – Expected 2027

- Classroom training covering networking fundamentals, Linux, ethical hacking, and security tools
- Regular hands-on practice in a controlled lab environment using Kali Linux, Nmap, and Wireshark.

PROJECTS & LABS

Network Scanning & Analysis | Nmap, Wireshark

- Performed basic network scanning using Nmap in a controlled lab environment.
- Identified active hosts, open ports, and running services.
- Captured and analysed network traffic and packets using Wireshark.

Cisco Packet Tracer Network | Cisco Packet Tracer, IPv4, Subnetting

- Designed and configured a small network using PCs, switches, and routers.
- Configured IPv4 addressing and subnetting.
- Tested network connectivity using basic troubleshooting commands.

Linux & Cybersecurity Lab | Kali Linux, Linux CLI

- Worked with Kali Linux and Linux command-line tools.
- Practised basic networking, system administration, and cybersecurity concepts in a lab environment.
- Used security tools only for authorised learning and testing.
